

Mirage

Polished Aluminum and Stainless Steel Cleaner

Removes Oxidation

Removes Road Film

Restores Shine

Dilutable

Mirage is safe to use on polished aluminum and stainless steel. It does not contain hydrochloric or hydrofluoric acid which can damage polished surfaces.

Mirage can be used to clean and polish tanker trailers, stainless steel tanks, RV wheel covers and other polished aluminum and stainless steel surfaces.

Mirage also works on brass, copper and other surfaces to remove oxidation, water scale and buildup.
