

DIRECTIONS:

This is a highly concentrated product. Do NOT use without diluting.

It is recommended to set the dilution at between 120:1 and 200:1 dilution.

Dilutions may vary depending on water quality and desired effect. It is highly recommended to use soft water for rinse cycle.

DRYING AGENT

Concentrated Rinse Agent

CAUTION
KEEP OUT OF REACH OF CHILDREN
Net Contents: 5 gal (18.93 L)

Drying Agent is a liquid concentrate designed to be added to the rinse cycle of manual or automatic car wash systems. It sheets water and helps prevent water spots.
