

INDUSTRIAL

Gone

Instant Mildew Remover

Fast Acting

No Mixing or Measuring

Specially Formulated

Gone is designed to quickly and easily remove unsightly mildew spots without scrubbing or brushing. Just spray or mist on the mildewed surface and let stand for approximately 60 seconds. The mildew will disappear.

Gone consists of a unique blend of wetting agents, surfactants, corrosion inhibitors, chlorine stabilizers, and metal hypochlorites. This unique formulation makes short work of mildew spots on most any surface. It is very effective for black spots on brick work and other outside walls that are caused by rainfall splash. It will remove mildew stains on sheet rock, eaves and trim work leaving the surface ready for painting.
