

DIRECTIONS:

This product is highly concentrated.

Shine Concentrate should be diluted with water at the ratio of 1 part to 10 parts water. Spray onto surface, allow 1-2 minutes of contact time, then wipe off.

Chart for Dilutions:

12 oz. Shine Concentrate + 116 oz. water = 1 gal

1/2 gal Shine Concentrate + 4 1/2 gal water = 5 gal

3 gal Shine Concentrate + 27 gal water = 30 gal

5 1/2 gal Shine Concentrate + 49 1/2 gal water = 55 gal
