

Tyre Shine

Tire Protectant & Polish

High Gloss

Fast Drying

Protects Against UV Rays

Tyre Shine is formulated to provide outstanding gloss and protection to tires. The silicones in **Tyre Shine** protect the tire from damaging UV rays while maintaining a high level of luster.

Tyre Shine is fast drying and easy to apply. It does not require any wiping or polishing. Just spray and go.

Tyre Shine can also be used on most plastics, fiberglass, stainless steel, and aluminum rims. It is not for use on floors or fabrics.
