

Phos-Master

Multi-Purpose Acid Detergent

Highly Concentrated

• **Biodegradable**

Low Foaming

Phos-Master is a concentrated, non-fuming, liquid acid cleaner, specially formulated to remove cement, lime, rust, detergent residues and hard water scale from a variety of surfaces in a wide range of applications.

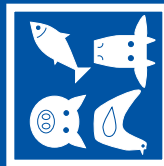

Phos-Master is a strong blend of inorganic acids, detergents and wetting agents that is formulated not to harm metal or painted surfaces when used according to directions.
