Re-Coil

Non-Acid Coil Cleaner

Powerful Foaming Action

Fast Acting

Economical

Non-Acid

Re-Coil is a concentrated alkaline coil and aluminum cleaner. It eliminates the harsh fumes and odors associated with acid coil cleaners.

Re-Coil has a powerful foaming action that penetrates grime, allows clinging to vertical surfaces. This foam helps to push dirt and grime away from the surface.

Re-Coil can be used to clean condenser coils and fins, as well as other aluminum surfaces such as trailers. It is a concentrated product that can be diluted with water for more economical use.
