APPLICATION INSTRUCTIONS

Spray or pour **Super Bugs-II** onto affected area at the rate of 1 gallon per 100 square feet of contaminated soil. Rake or till the soil. Water as needed to maintain a moist environment. Reapply and rake or till as needed.

For deep contamination use 100 gallons per 1500 cubic yards of soil. Repeat application may be necessary for heavily contaminated soil.

NOTE: the microbes will die if they come in contact with pure bleach or any chemical resulting in a pH over 11 or less than 4. Do Not expose to water temperatures in excess of 140°F. Do not allow to freeze.
