

Softy

Waterless Hand Cleaner

Heavy-Duty

Free-Rinsing

Conditions Skin as it Cleans

Softy is an industrial strength hand cleaner with powerful cleaning solvents that can be used with or without water. The solvents remove stains that water-based hand cleaners cannot.

Softy also contains lanolin and other skin conditioners to prevent skin from drying out and cracking.

Softy removes grease, grime, tar, oil, ink, paint, adhesives, etc. while conditioning hands.
